

CCNA v7 – Course 2 – Switching Routing and Wireless Essentials (SRWE) Training Schedule

Please refer to the CCNAv7 **Switching Routing and Wireless Essentials (SRWE)** for details relating to each Module

Cluster 1		Module	General Objective	Dates	Break/Holiday	Test date
1	1	Basic Device Configuration	Configure devices using security best practices.	November 1, 2022		Test will be opened from, November 22, 2022 – November 28, 2022 (11:59 p.m.)
	2	Switching Concepts	Explain how Layer 2 switches forward data.	November 3, 2022		
	3	VLANs	Implement VLANs and trunking in a switched network.	November 8, 2022		
	4	Inter-VLAN Routing	Troubleshoot inter-VLAN routing on Layer 3 devices	November 15, 2022		
2	5	STP Concepts	Explain how STP enables redundancy in a Layer 2 network.	November 22, 2022		Test will be opened from, November 28 – December 4, 2022 (11:59 p.m.)
	6	EtherChannel	Troubleshoot EtherChannel on switched links.	November 24, 2022		
3	7	DHCPv4	Implement DHCPv4 to operate across multiple LANs	November 29, 2022		Test will be opened from, December 8 – December 18, 2022 (11:59 p.m.)
	8	SLAAC and DHCPv6	Configure dynamic address allocation in IPv6 networks.	December 1, 2022		
	9	First Hop Redundancy	Explain how FHRPs provide default gateway services in a redundant network.	December 6, 2022		

Course: CCNA V7 – SRWE Course Outline
 Institution: HCIT
 Instructor: Alwyn Taylor
 Group: CCNA May 2022 Intake

Cluster 1		Module	General Objective	Dates	Break/Holiday	Test date
		Protocols (FHRP) Concepts				
4	10	LAN Security Concepts	Explain how vulnerabilities compromise LAN security.	December 13, 2022	December 23, 2022 – January 9, 2023	Test will be opened from January 13 – January 22, 2023 (11:59 p.m.)
	11	Switch Security Configuration	Configure switch security to mitigate LAN attacks.	December 20, 2022		
	12	WLAN Concepts	Explain how WLANs enable network connectivity.	January 10, 2023		
	13	WLAN Configuration	Implement a WLAN using a wireless router and WLC.	January 12, 2023		
5	14	Routing Concepts	Explain how routers use information in packets to make forwarding decisions.	January 17, 2023		Test will be opened from January 20, 2023 – January 29, 2023 (11:59 p.m.)
	15	IP Static Routing	Configure IPv4 and IPv6 static routes.	January 19, 2023		
	16	Troubleshoot Static and Default Routes	Troubleshoot static and default route configurations.	January 19, 2023		
Revision				January 24, 2023	Study Break – January 25 - February 3, 2023	
Mock Exam				Test will be opened from January 20 - February 5, 2023		
Final Exam				• Practical February 5, 2023 • Theory February 12, 2023 • Resit Practical (if required)– TBD • Resit Theory (if required)– TBD
